Let us know it is in Care of the

Brenda Bandy fund

This is time sensitive January is the deadline.

The family was hit hard by hurricane Harvey now a year has past and they still are trying to get on their feet. Brenda & Jimmy take care of her 82yr old dad and work jobs in the Rockport area to support themselves, but when they had to leave they did not get paid for time lost and have no savings. They were forced out by the owner and saved enough to put down on this tiny house and property, but it has no septic system in place.
