Since hurricane Harvey over a year now this family still need a home. They have been passed by because they are older adults with no children but still need a home. Brenda & Jimmy take care of her 82yr. old dad. They both work jobs in the Rockport area to support themselves. After the hurricane they came back to the rental home only to find that the roof damaged, but still the owner would not repair it. But worked and pulled enough together to put down on a piece of land and have this tiny house put on it. They have made progress and now have water and electric on the property, but it has no septic system in place.
